

April grounds for June Board report. 71 hours for April.

Tuesday 4/4/17 16 hours

Wow, big turnout today. Mark, Lee and Bob M. painted all morning. Larry, Hal, John, Bill and Jim continued trimming behind Blue Fox. We are almost finished with the trimming. We ran into a rattler this morning. We all got great pictures. Mark, Lee and Bob M. are going to continue painting the railing behind Blue Fox. They are going to start at 7am on Friday, the rest of us will start at 8am. Thanks again for all the help.

Friday 4/7/17 12 hours.

Another big day today. Mark, Lee, and Bob Muldoon started at 7am and painted till they ran out of paint. Bill, John, Norm Burt, Bob Fillian, Hal and Jim fixed some leaks and did some minor trimming behind Blue Fox and in the wash. Finished early. Sunland cut the asphalt in front of the equipment shed and we took out the asphalt and it is ready for a trench to lay the water line (Larry).

Tuesday 4/11/17 15 hours

Wow a big thanks to Bob M., Hal, John Mark and Lee. They showed up at 7am and painted until they ran out of paint at 10am. That was a big morning and that hill they were painting on is steep and difficult to work on. I hope they had a good break.

Friday 4/14/17 10 hours

Great day today, finished painting behind Blue Fox today, so the barrier screen is now all the same color and well protected for years to come. Mark, Bob and Lee did that nasty work. Larry and John worked on the irrigation on Golden Lynx and made some changes as to what is getting watered. Hope to keep a grasp on our watering schedules this year and see if we can't get back to a more reasonable cost for water this year.

Friday 4/21/17 8 hours

Larry, Bob, Hal and Mark spent some time in the wash behind Viva cleaning up some debris and garbage in the wash. There is some mesquite pieces by the dumpster if anyone is interested. Hot Desert will spend a couple of days attacking some of the rat infestation on Golden Lynx.

Tuesday 4/25/17 6 hours

Light day today. Hal, Bob and Mark made a trip around the Nature Park. They did some trimming and cleaning up some dead cactus. They checked out the dog run and did some more measurements for the snake fence. Mark's going to check and see if we can get some dog people to help out.

Friday 4/28/17 4 hours

Bob and Mark marked some cactus for Hot Desert to clean up around the Nature Path. They cut back some Desert broom and trimmed some Palo Verde and Mesquite on the trail. They also cleaned up around the construction project and discussed the drainage issue. The Shed has been framed and the next step is stucco.
