

The Springs HOA Grounds Report 09/08/2026

Grounds Crew started back up on September 1st
Grounds crew hours 13
Debris yards removed 6

I received 3 requests from residents during the summer, and all of those were resolved.

Bruce and I met with Tucson Urban Forestry to look at some trees that had overhanging branches that were over residents' walls. I received and approved their estimates. That work will start in October.

I also approved an estimate from Felix Landscaping for tree stump grinding.

Worked with George Anderson and Cynthia Drake to finish our work on the Springs HOA Landscaping Master Plan to present to the board for review.
