

President's report – November 2024

A very brief report this month:

- Met with residents regarding the GWR billing cycles and relayed that information to GWR Regional Manager for Customer Service. It appears the anomalies were corrected or explained to residents' satisfaction.
- Worked with grounds crew members to help establish a new scheduling, execution, and follow up regimen to provide for efficiency and cost effectiveness. Three volunteers stood up to oversee the new system: George Anderson, Lee Blahnick, and Jim Clausen.
- Helped Victor Frankfather with entry sign project. We met with sign company designer and a new sign has been ordered.

Respectfully submitted,

Bruce Grieshaber, President
