

The Springs Homeowners Association
Infrastructure report
March 14, 2023

Slow month for infrastructure events. I have been gone most of the month. We were able to rid ourselves of the panels we removed from the storm damaged south wall at no cost to the Hoa.

I had a conversation with a concrete contractor that might be used in the future for some of our sidewalk repairs.

We have some metal fencing we will need return on the brick wall at the Rio fuerte entrance. We removed it so we could access the area to rock it.

Respectively submitted, Mark Koruga
